github.com/viserionwick | linkedin.com/in/viserionwick | viserionwick.vercel.app

Detail-oriented software engineer with over 6 years of experience in creating user-focused web services and applications. Proven track record of developing responsive and scalable websites using the latest web technologies.

EXPERIENCE

Portfolio – *SWE*   Website | GitHub | **Dec 2022 – Present**

- Developed a user-friendly and responsive portfolio website to showcase projects with comprehensive descriptions with images, detailed skill sets, and a contact form for recruiter inquiries.
- Designed and integrated an original admin dashboard with auth roles for streamlined content management.
- Utilized NextJS in TypeScript for the frontend, MongoDB, Mongoose and GraphQL for the backend, and Jotai for state management. Tailored UI/UX reusable library in SASS, hosted media on Cloudinary and deployed on Vercel.

eCommerce Template – *SWE*   Website | GitHub | **May 2022 – Nov 2022**

- Developed a fully functional, responsive, and dynamic React eCommerce template with high scalability and SEO-friendly features.
- Engineered an original admin panel with safe authentication, product management, a shipping landing page, and robust cookie management.
- Utilized ReactJS for the frontend, Firebase and NodeJS for the backend, Jotai for state management, and Google Analytics for tracking. Created a reusable UI/UX library in SASS.

Madam10 – *Intern*   Website | **Jan 2019 – Jul 2019**

- Developed Microsoft Excel automation programs to support the product manager's tasks and enhance productivity.
